This communication is in response to the Office Action dated October 18, 2010. The following response is being drafted to place the specification in proper condition for substantive examination, and follows the kind suggestions of the examiner. This response will therefore assume the following: 1) that the amendments to the claims as set forth in the Reply and Amendment dated April 3, 2009 have been entered, and 2) that the amendments made to the specification as set forth in the Reply and Amendment dated February 29, 2008 have not been entered. Applicant amends the present application as follows:
